ABSTRACT

It is the intent of this bibliography to provide comprehensive but not exhaustible resource publications on educational statistics published by the United States Government for the period 1970 through February 1986. Entries are arranged alphabetically by title and include the date published and the Superintendent of Documents Classification Number. If the publication was not issued through the Superintendent of Documents but is available in the American Statistical Index (ASI) Microfiche Collection, the ASI Microfiche Number is given. In cases where classification numbers have changed, an attempt has been made to identify all the numbers. All the publications are available in the Government Documents Division of the University of New Orleans Library and may also be available in other libraries that are depositories for U.S. federal documents. INTRODUCTION

It is the intent of this Bibliography to provide comprehensive but not exhaustible resource publications on educational statistics published by the U.S. Government, 1970 through February, 1986.

Entries in the bibliography are arranged alphabetically by title, and include the date published (unless a series, annual, etc.), and the Superintendent of Documents Classification Number. If the publication was not issued through the Superintendent of Documents but is available in the ASI (American Statistical Index) Microfiche Collection, the ASI Microfiche Number is given. In cases where classification numbers have changed, an attempt has been made to identify all the numbers in which a publication has been classified.

All of the publications listed in this Bibliography are available in the Government Documents Division of the University of New Orleans Library and may also be available in other libraries which are depositories for U.S. Federal Documents.
